Memo to File

Date: 10-27-15

To: Dennis Yoder Facility / SOPC00283

From: Kevin Smith, TDEC-DWR, Jackson Field Office

Subject: Pictures received from Dennis Yoder showing old and new compost location

I conducted an inspection at the Dennis Yoder Facility / SOPC00283 in Henry County on 10-8-15. During the inspection it was observed that Mr. Yoder's compost piles were located less than 30 feet from his water well. As a result of the inspection TDEC requested Mr. Yoder to move the compost piles a minimum of 200 feet from his water well. On 10-19-15, I received an email from Mr. Yoder indicating that he moved his compost piles on 10-16-15 but he had been out of town over the weekend and hadn't had an opportunity to send me pictures of his new compost location. On 10-20-15, I received pictures from Mr. Dennis Yoder showing that he had moved his compost piles, which were originally located near his water well, to the opposite side of his facility away from his water well. Below are the pictures received from Mr. Yoder on 10-20-15. The first two pictures are of his former compost location and the last 3 pictures are of his new compost location.
